

BERLITE®

Reference letter

Molivnik Agency (Shift Creative Ltd.) asked us whether we would be interested in writing a letter of recommendation. Naturally, we were very happy to do so.

From start to finish, the website we created for our company was executed with much care and attention to detail. Over the course of few meetings we were able to get our point across as to what we were looking for and the creative team over there were able to perfectly capture our ideas and translate them into an incredible visual concept, which later on turned into a website fitting of our brand.

Given the expertise of the team, ability to translate technical terms into understandable conversation and exemplary work ethic, I have no doubt that you will find Molivnik a trustworthy partner for your future projects. Last but not least, they have continued to be very helpful with any questions we've had long after the completion of the project.

Sincerely,

Yunus Emre Bilgesu

CEO, Berlite
